Listing of Claims

1-22. (Cancelled)

23. (Previously Presented) An article comprising an organic light emitting full color display panel wherein red, green and blue dopants are simultaneously deposited in a host layer such that the blue dopant is deposited on a blue sub-pixel and at least one of a red and green sub-pixel, and wherein the red and green dopants emit light through electroluminescence.

24. (Original) The article of claim 23 wherein the blue dopant is dispersed in an electron transporting layer.

25. (Original) The article of claim 23 wherein the blue dopant is dispersed in a hole transporting layer.

26. (Original) The article of claim 23 wherein the blue dopant is dispersed in a host layer between an electron transporting layer and a hole transporting layer.

27. (Previously Presented) The article of claim 23 wherein a mask is integrated with the display panel.

28. (Original) The article of claim 27 wherein the mask comprises photoresist.

29. (Original) The article of claim 28 wherein the photoresist is a dry film photoresist.

30-37. (Cancelled)
